OLYMPIC DISTANCE SWIM COURSE CHANGE

The 1500m Swim Course for the Olympic Distance has changed to a 2 Lap course to improve safety, with the side benefits providing swim split times and a spectacle for supporters.

Where previously the 1500m swim had taken athletes through the moored boats at St Kilda Pier, on a complicated course to achieve the distance, we have now moved to a 2 lap rectangular course that will ensure swimmers are safely within control of lifesaving at all times, and a simple course path.

Having tested this format at other events, we saw a great atmosphere on beach as swimmers ran from the Swim Finish to the Swim Start to commence their second lap, being cheered on all the way. In the results, athletes will receive a split for their 2 in-water segments and 1 beach run segment, enabling them to compare the 2 laps accurately.

Lapping Swimmers will have an exclusive fenced chute from the Swim Finish to Start, to ensure they are not impeded by other wave starts, this will continue out into the water. We hope you enjoy this course feature and look forward to seeing you on the weekend.
